*QuickConnect rates based upon one year contract. QuickConnect includes one IP address. Additional IP addresses can be added for \$25 each one-time charge. \$100 setup applies to all initial QuickConnect installations. QuickConnect overages (uncontracted) charged at \$600/Mbps, 512 Kbps increments. Additional (above 1 Mbps) contracted available, in 256 Kbps increments, price prorated at \$500/Mbps for all increments for those portions over 1 Mbps. Coloco guarantees the bandwidth that the customer has contracted to the edge of the Coloco network and through to the first external path, though it is probable that higher speeds may occur during much of the day. Coloco reserves the right at any time to require that any client regularly using in excess of contracted capacity contract for the appropriate additional increment(s). Standard power configuration consists of 120 vac, breakered @ 15 amp, twist lock with GEN & UPS. Additional power available at a negotiated rate.

All MacroColoco accounts with monthly billings of \$750 or less are charged to a Visa or MasterCard; the receipt is mailed to the client. In certain instances, an advance payment account may be required Coloco does not bill in arrears for recurring services.
