

MicroColoco Services

1rU \$50/month

1 unit ("1rU", rack unit) comprises 1.75 vertical inches of space in a standard 19x23" footprint cabinet

- Includes 40 GB traffic per month*
- For larger vertical machines, \$30/month per additional U**
- For example, a 4U machine costs \$50 + 3(\$30) = \$140/month
- Energy included in most cases

12th month free*
 for annual payment in advance!

Towers \$100/month

Coloco recognizes that such units have utility to some clients. For a tower unit that occupies no more than 1/2 standard shelf in our cabinets and does not exceed 20 inches in height, the monthly rate for the first year is \$100/month, with the same other provisions as 1rU pricing. Beginning the 13th month, the rate increases to \$200/month. Larger towers are charged proportionately. Coloco reserves the right to levy additional energy charges for certain machine designs.

Special Bandwidth Provisions

For clients who use our MicroColoco offering and prefer to contract for sustained bandwidth instead of total traffic, the following rates are available:

- \$30/U/month colocation.
- Bandwidth \$500/Mbps/month contracted; 512 Kbps \$250; 768 Kbps \$400.
- \$600/Mbps/month for those uncontracted portions exceeding 95th percentile (256 Kbps increments).

Service Options

- Remote power cycle, \$100 install per 110 volt outlet, no recurring charge, a *highly recommended option*, this allows you to reboot remotely by browser.
- Building access cards issued, \$50 deposit per card, allow 24x7 access for your authorized staff.
- Dial-in private phone line to your gear: \$20/month, \$75 installation.
